Date of Birth: 11/10/1991

OBJECTIVES

I am a Ph.D student with degree in pharmacy and I am looking for an international opportunity to deepen my knowledge and skills and to face a multicultural and challenging environment.

PROFILE

I have an extroverted and outgoing personality, ready to accept new and demanding challenges. I've played many years several sports where I learnt the power of discipline and how it is important to cooperate with your team mates. As my experience in London can demonstrate, I'm a curious, independent and open-minded person who is not scared to cooperate with new cultures.

Since the very beginning of my academic process I've learnt to deepen my knowledge and to push forward my skills to test my limits to the extent that I won the Skin Summer School 2015 4th Edition.

Thanks to this ambitious attitude and my strong motivation to explore new opportunities, I decided to continue my studies with Ph.D. Now I feel ready to start a new journey applying for an opportunity in a foreign country

WORK EXPERIENCE

*Feb 2015 – Jul 2015 (Pavia, Italy)
Department of Drugs Sciences*

Tutor activity of Cosmetic and Pharmaceutical Technology in University of Pavia: I supported students during academic courses, in order to define their personal projects and enhance their course knowledge. I have sustained them during laboratory work and before the exam with review's lessons.

During this period I could to pass on my passion to my studies and I understood the importance of communication skill.

EDUCATION

*Nov 2015 (Pavia, Italy)
Department of Drugs Sciences*

University of Pavia

Ranked as the second best University in Italy according to the CENSIS-Repubblica list.

Doctor of Philosophy (Ph.D) in Chemical and Pharmaceutical Sciences

Duration 3 years, expeted on 2020:

“Technological strategies and pharmacoeconomic remarks in the prevention of photoinduced damages: product stability, efficacy and safety” Supervisor: Professor Paola Perugini.

The Ph.D courses are reserved to graduate students after selective entrance exams. Admission is very competitive and positions are restricted to a limited number of applicants. Candidates are ranked on the basis of their exam performance and then assigned a place on the PhD programme: only the best 8 students are approved. Ph.D is the third level of training in the Italian academic system and the goal is to develop outstanding independent scientists with the knowledge, experience, and confidence to step into leadership research positions in academic, industrial, or governmental contexts in the chemistry, analytical and pharmaceutical technology sectors.

*Sep 2010 – Jul 2015 (Pavia, Italy)
Department of Drugs Sciences*

University of Pavia

Degree in Pharmacy: final vote 99/110

Ranked as the second best University in Italy according to the CENSIS-Repubblica list.

The degree in Pharmacy is ranked in the top 10 of the best degree in Italy.

Sperimental Thesis (effort 10 months): “INTERACTION CONTAINER-CONTENT IN COSMETICS: Experimental protocol for the evaluation of mechanical properties and chemical analytical of a linear low density polyethylene (LLDPE)”. Supervisor: Professor Paola Perugini and Assistant: Barbara Mannucci, Enrico Salvarani.

During my sperimental thesis I have worked with:

- Lameplast Group SpA, specialized in manufacturing of primary plastic containers for pharmaceuticals and cosmetics. They provided the material that I used for my research;
- Centro Grandi Strumenti, Mass Spectrometry Laboratory University of Pavia, which provided me with analytical methods such as HSSPME/GC-MS and exane extract SOXTHERM.

Sep 2005 – Jul 2010 (Pavia, Italy)

Liceo SocioPsicopedagogico Adelaide Cairolì

High School: final vote 72/100

It has granted me a good basic formation to take on the university career.

CERTIFICATIONS

Aug 2015 (London, UK)

English Language School London, UK: the Avalon London School is an English school certificated by the British Council.

I consider these one months in London the best experience that i could ever have done not only because I learned and achieved a lot as I could be independent and had the opportunity to improve my English language skills but also for what i really understood from living in a foreign country: we are very different from each others. As I shared this experience with foreign students i deeply understand how many things remain to be learned and seen and this make me really motivated and encourage. It also improved my outgoing personality focusing on various important cultural exchanges, i reach now a more open and critic point of view on how things should has been done.

LANGUAGES

Mother tongue: Italian level C1

Other language: English level B1

* According to the Common European Framework of Reference for Languages (CEFR)

AWARDS

22-24 Jul 2015 (Pavia, Italy)

I have participated as a Speaker in the **Skin Summer School 2015 4th Edition** “Efficacy evaluation of ingredients and cosmetic products” and I have won award for the **best poster** with a work entitled: “Study of Linear Low Density Polyethylene (LLDPE) as polymeric packaging for cosmetic products”.

COMUNICATION AND ORGANISATIONAL SKILLS

I have good communication skills, gained through my experience work at University of Pavia with students.

I have good speaker skills, gained through my experience during event Skin Summer School.

I am organized and precise. This skill have been gained through my experience in laboratory during the sperimental thesis.

COMPUTER SKILLS

Microsoft Office: Advanced ability to fully exploit all the features of Microsoft Excel, Word and PowerPoint.
